Class 4: acceptable & good,
Class 3: needs some improvement,
Class 2: low and needs major improvements,
Class 1: very low
PARTNERING WITH LEAF TO PROVIDE A COMBINED AUDIT

JEREMY BOXALL
Sustainability Project (NHP) is an add-on developed by GLOBALG.A.P. together with REWE International AG and GLOBAL 2000.

The add-on provides transparency about on-farm sustainability metrics and measures continuous improvement, all without sharing individual metrics publicly or with downstream supply chain partners.
REWE AUSTRIA SUSTAINABILITY PROJECT

1. PRODUCER

2. Metrics / Data

3. Feedback

4. GLOBAL 2000

IFS Standards

IFS in the Food Supply Chain

IFS Cash & Carry / Wholesale:
→ Cash & Carry Markets
IFS Food Store

IFS Logistics:
→ Transport, Storage and Distribution
IFS Broker

IFS Food: Post-Farm Gate
→ Food Manufacturers

GLOBALG.A.P.
GLOBALG.A.P. & IFS in the Americas
North America

IFS Food 6
Co-operation with United Fresh Producers

- Fruit and vegetable companies, which are active in the pre-farm as well in the post-farm sector should get the possibility to do a combined audit approach for the pre-farm area as well as for the packaging activities which are located in the post farm area.

- This one-stop-solution should combine the pre-farm standard GLOBALG.A.P. with IFS Food.
