

Join us at the 12th GLOBALG.A.P. conference on food safety, sustainability, traceability, and social, animal and environmental responsibility in agriculture and aquaculture.

**5
REASONS**

5 REASONS WHY YOU NEED TO BE AT THE GLOBALG.A.P. SUMMIT 2014

1 NETWORK WITH THE INDUSTRY'S DECISION MAKERS

Meet and share with over 400 top international retailers, food service experts, producers, certification bodies, and industry experts from the global food industry, all dedicated to promoting food safety and sustainability.

2 LEARN ABOUT INNOVATIVE & SUCCESSFUL SMALL-SCALE FARMING MODELS

A session dedicated to small-scale growers, producer groups, and farmers in emerging countries will provide a platform for mutual learning and information exchange. Expand your knowledge through presentations on the latest research, case studies of successful G.A.P. programs and schemes from around the world, and regional stages showcasing the varied solutions producer groups have developed to meet consumer and market demand for assured farm practices.

3 DISCOVER HOW GOOD AGRICULTURAL PRACTICES CAN PLAY A KEY ROLE IN GLOBAL FOOD SECURITY

Feeding 9.6 billion people by 2050 is one of the biggest challenges facing all of humanity today. How can Good Agricultural Practices help secure food supplies today and in the future? Keynote speakers from industry, public sector, NGOs, and standard-setting organizations will explore how to jointly tackle the challenge of feeding the world sustainably over several generations.

4 GAIN INSIGHTS INTO THE POTENTIAL OF THE MIDDLE EAST AND NORTH AFRICA REGION

With 65% of the population now living in urban areas, the Middle East and North Africa (MENA) imports 50%* of its food, making it a highly attractive market for food industry importers and exporters. But due to rising food prices, domestic agriculture has taken on strategic importance in the MENA, where food security has become a top priority. Learn about this key region's challenges, advances, and potential.

5 CONTRIBUTE TO SHAPING THE FUTURE OF GLOBALG.A.P.

The revision process for Version 5 of the GLOBALG.A.P. Integrated Farm Assurance is now underway and the conference is your chance to work right at the source. Our committee members—Retail, Food Service, and Supplier & Producer Members—will be presenting the first catalogue of changes to the control points and compliance criteria. Here's your opportunity to discuss directly with them, share your concerns and your feedback, and make a valuable contribution to the GLOBALG.A.P. IFA Standard, the most widely accepted farm assurance system in the world. It's your voice that makes all the difference, and we want to hear it!
