

# GLOBALG.A.P. RISK ASSESSMENT ON SOCIAL PRACTICE (GRASP)

GRASP Checklist – Version 1.3

Checklist Individual Producer (Option 1)

Valid from: 1 October 2016

Mandatory from: 1 January 2017

# HOW TO USE THIS CHECKLIST

This GRASP Checklist shall be used by assessors who are assessing the implementation of the GRASP Module. GRASP is the abbreviation for GLOBALG.A.P. Risk Assessment on Social Practice. After the assessment, the filled in checklist shall be uploaded to the GLOBALG.A.P. Database.

## REQUIREMENTS FOR GRASP ASSESSORS

The GRASP Assessment can be conducted by GLOBALG.A.P. approved auditors/inspectors who successfully completed the GRASP online training and online test, and who are trained by the in-house trainer. In countries without a GRASP National Interpretation Guideline, the auditor/inspector who conducts the assessment must have additional qualifications: at least SA8000 Introduction & Basic Auditor Training Course (5-days) or a minimum of 5 social audits in agriculture (Fair Trade (FLO), SA8000, BSCI Primary Production). Please see further details in the GRASP General Rules.

## REQUIREMENTS FOR PRODUCERS

GRASP is a voluntary add-on module and does not form part of the accredited GLOBALG.A.P. Certification. However it logically complements the GLOBALG.A.P. Standards (all sub-scopes) regarding issues of good social practice. Thus only producer/producer groups who are GLOBALG.A.P. certified or certified according to an equivalent benchmarked scheme/AMC (or in the process of achieving a certificate) can register for a GRASP Assessment.

## HOW TO REPORT ON THE GRASP ASSESSMENT

Compliance to the control points is voluntary and has no influence on the GLOBALG.A.P. Certification. However, if a producer decides to conduct the assessment, the upload of the filled in checklist(s) to the GLOBALG.A.P. Database is mandatory. After the assessment, the producer and the assessor must sign the completed GRASP Checklist. The results of the assessment will then be visible through the GLOBALG.A.P. Database (proof of assessment).

**For the checklist upload add only information without mentioning names, surnames or other personal data that clearly identifies a person. You can use instead of that the initials/other abbreviations, the position of the employee or internal codes/numbers assigned by the producer/company.**

## NATIONAL INTERPRETATION GUIDELINES

Legal requirements regarding the control points differ from country to country (e.g. minimum wage, age of legal employment, working hours etc.). Legislation overwrites GRASP where relevant legislation is more demanding. Where there is no legislation (or legislation is not so strict), GRASP provides the minimum compliance criteria. National Interpretation Guidelines (available on the GLOBALG.A.P. website) make requirements transparent to producers and assessors. If producers are interested in a GRASP Assessment and there is so far no Interpretation Guideline for the respective country available, please contact the GLOBALG.A.P. Secretariat to follow the specific application procedure.

## HOW TO FILL IN THE GRASP CHECKLIST

The GRASP control points are formulated in a complex way, often covering more than one aspect. In order to make the requirements clearly understandable, this checklist shall be used to assess each control point. Each control point is the base for several questions in the checklist that clearly define steps that must be taken to fulfill the Control Points and Compliance Criteria, and give an orientation to the assessor. The answers allow to score every Control Point and Compliance Criteria on a scale to determine whether the producer is compliant or not.

For Option 1 producers and for the externally assessed producer group members: In the last column, the assessor is required to indicate compliance of each sub-point (Yes/No/non-applicable).

For Option 2 the assessor must:

1. Conduct an assessment of the square root of all producer group members (the assessor can use the checklist for individual producers).
2. Upload the external results summarized in the GRASP Option 2 Checklist.

For all control points evidence & remarks should be given and corrective actions must be listed.

Non-applicables shall only be given in exceptional cases and must always be explained in the remarks field.

## ASSESSMENT TECHNIQUES: SUMMARY

For assessing social issues, a special sensitivity of the assessor is required. Please consider the following points when you assess the

## GRASP Module:

- Please prepare well for the GRASP Assessment. You must be aware of up-to-date information regarding legal regulations, bargaining agreements, etc. The National Interpretation Guideline supports your preparation. Make sure that the person responsible for implementation of GRASP and the employees' representative(s) have received and read the National Interpretation Guideline. Please also read the Implementation Guideline/FAQs and give them to the person responsible for implementation of GRASP and the employees' representative(s).
- You don't necessarily need to stick to the order provided in the checklist, but proceed then according to the situation. It may be easier to start with rather "uncritical" issues and document checks and then move to the more sensitive topics.
- Especially during the interview with the employees' representative(s), make sure that he/she is in an environment where he/she can talk openly – without the management being present.
- Do give attention to setting a good atmosphere between you and the persons you talk to.
- Observe your non-verbal communication (facial expression, gestures, etc). Do not inspect the farm with a checklist in front of your face. For assessing the control points, it is crucial that you know them by heart.
- If you feel that you may not be told the truth, do not insist. Find other ways of clarifying the issue, by checking more documents, talking to a different person or simply by rephrasing your question at a later stage.
